### Committee Backs Transportation Plan

The Senate Transportation, Commerce & Workforce Committee approved Senate Resolution 175 that would create a Hyperloop to connect Columbus to Chicago and Pittsburgh. The Hyperloop would be a low pressure tube either underground or in a tunnel, and would transport passengers and cargo up to 700mph. This resolution will likely be on the floor quickly as Ohio is currently in a competition for the location of this Hyperloop. Hyperloop One, the company sponsoring, and private investors will fully fund the project and are expected to announce the selected location this month.
